CUP21 g.42/37

AT a Meeting of the Inhabitants of the pariſh of SAFFRON WALDEN, held at the Roſe and Crown, on Friday the 10th day of July, 1795, the following Reſolution was entered into.

At this Meeting it appears highly neceſſary, from the great ſcarcity of Wheat and Flour in hand, and the improbability of further ſupply, that every expedient ſhould be uſed for leſſening the conſumption, and eking out the preſent ſupply; the Inhabitants preſent do thereupon reſolve to uſe in their own Families a coarſer ſort of Flour, and as ſmall a quantity of it as poſſible, uſing every ſubſtitute that can be deviſed; and do moſt earneſtly recommend the ſame to the pariſh in general, as a meaſure, in their opinion, abſolutely neceſſary.
